The library contains 3268 volumes and is conceded by experts to be the best selected library of its size in the State. Since it was opened to the public, Oct. 15, up to March 1, 5161 books had been taken out and 497 cards written. The classification is much the "Dewey" system, which is now being used by all the leading libraries in the country. Mr. Stewart has been to quite a large expense to have the books properly classified, and has employed the librarian to assist in the work that he might be able to handle the library successfully. The copy for the printed catalogues is already in the hands of the printers and will soon be issued.

That is what our new line of spring goods is
successfully doing.

The fine assortment of CLOTHING which we are now offering is direct from one of the largest clothing dealers in New York and we have never experienced a sense of greater satisfaction than now, as we show up fine styles, qualities and fits, all to be had at the most reasonable prices.

We have the utmost confidence in our ability to please all in want of fine goods, or of coarser grades for everyday wear.

We want your trade and we feel confident that we are in a position to make a stronger bid for it this spring than ever before.

Remember that we are here to remain and that it is as much for our interest to please customers with good bargains as it is for the interest of purchasers to feel-satisfied. By satisfying our patrons we expect to hold their trade and we simply ask that we have an opportunity to show those in want of anything to be found in an up-to-date clothing house, our numerous genuine bargains.

Respectfully Yours,
